

Florida Starfruit

Refreshingly tropical taste
with hints of pear or apple.

Enjoy starfruit

When golden yellow
and with tips of brown.
Trim tips and remove
seeds, if desired.

- Toss into your drink, blender or juicer. Have a slice to top.

- Add to fruit or veggie salads, before or after the dressing.

- Snack on it like an apple, enjoy bite-by-bite.

- Top almost any dish, give it the star treatment.

- Toss in with the dish. Starfruit adds the tropics to what's being baked, sauteed, grilled, broiled, and stir-fried.

- Complete any fruit or cheese plates with starfruit slices.
